

Nationally Accredited Accuracy Checking for Pharmacy Technicians

A Blended Learning Programme

Once registered for the Scheme we want candidates to gain as much knowledge as possible providing a solid grounding to complete the course.

The knowledge is split between e-learning and a study day; the e-learning activities need to be completed before attending a study day. Both e-learning and study day will ensure candidates are up to date with current practice.

e-Learning Activities – candidates need to complete e-lessons on:

- Dispensing Practice & e-Assessment
- Pharmaceutical Calculations & e-Assessment
- Reflective Practice & Writing
- Legal & Ethical Framework
- Clinical Governance
- BNF

Scheme Handbook

All candidates will have access to the handbook via the e-Learning site
